

WORLD WATERSKI RECORD

Hi Everyone.

The good news keeps on coming. Developments you will be interested in knowing about are:

- The new rope required for the extra skiers and boom extensions has arrived in Australia and we will take delivery of it in the next few days.
- New rope reels and rope reel holders will need constructing.
- The new sections of boom material are crossing the Nullarbor and will be ready for Aluminium welding guy to weave his magic with early in the New Year. Checking the condition of the existing boom sections is required too.

All available people who can assist with these tasks are invited to join us at a working bee on Monday 19th December at Roger Smith's workshop 70 Tugrah Road commencing at 6.00 p.m. If you are available please email Jess Last on lastja@postoffice.utas.edu.au and indicate you will be attending.

Have you:

- **Registered** on our website? <http://www.skirecord.com/>
- **Paid your** \$60 if you skied in January or March 2010 or \$230 if you are new skier to the challenge.
